Phone* Email* Potential Order Date* (C) Total Length* (D) Section Size / Truss Spacing* (E) Total Width* (F) Gutter Height (H) Gutter to Truss (I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
Email* Potential Order Date* (F) Gutter Height (H) Gutter to Truss (I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
Potential Order Date* (F) Gutter Height (H) Gutter to Truss (I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
(F) Gutter Height (H) Gutter to Truss (I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
(H) Gutter to Truss (I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
(I) Truss Height (J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
(J) Underside Truss to Ground* (K) Top of Crop (from Ground)*
Crop Type*
Light Level (μmols/m².s)*
Desired Light Source(s)* LED HPS MH CMH Hybrid [†]
†Specify Light Sources for Hybrid Plan(s)
Desired Spectrum (LED only)
Preferred Reflector (HID only)
Preferred Lamp (HID only)
Voltage Required* (D.D.)
Track/Truss Mounting Preference
Track Drop from Truss (Track Only) (F)
Track/Truss Cross-section Dimensions (I)
height
(D.D.) Drop Distance Bottom of track/truss to top of fixture (K)
housing - max. allowable 12 in / 30 cm

Request for Greenhouse Light Plan

Floor Plan

Please use the space below to sketch in the location of the aisles and other areas that do not need supplemental lighting. In the case of more complex areas, please include the greenhouse design plans. Heating pipes, irrigation pipes, etc., affect light levels and uniformity, so please indicate their exact locations and numbers.

If there are attached drawings, please indicate file names:

File Name File Name File Name	File Name File Name File Name	
◆	- C	

	Yes	No
Shade Screen		
If yes, is it on the top or bottom chord of the truss?		
Heating Pipes		
Irrigation Pipes		
Other Obstacles		
If yes, what kind:		

	Yes	No
Newly Built Greenhouse		
Fixtures Already Present		
If yes, what type		

Request for Greenhouse Light Plan

Note: Completion of this page is only required for high wire crops like tomatoes, etc.

(L) Crop Gutter Height	
(M) Crop Height	
AD = 46 A	
(N) Top of Crop to Crop Wires	
(0) 11 1 11 7 0 146	
(O) Underside Truss to Crop Wires	
(P) Distance between Crop Rows	
(Q) Underside truss to Crop (O + N)	
# Crop Rows per Bay	

This calculation is based on exact measurements in perfect conditions. Because of this you may experience some variance in light-levels.

All fixtures must be mounted straight and level in all directions to achieve the calculated light-level and uniformity
